

DEVELOPMENT ENGINEER II

- Raw Material Introduction

Replacement for Maternity leave

(JOB ID: 148219BR)

Location: Continental Matador Rubber, s.r.o., Puchov

OUR COMPANY

As one of the leading automotive suppliers worldwide, we develop products and solutions to fulfill people's dreams of mobility every day. Driver safety, comfort, sustainability and industrialization of future technology are just some of our key fields where we already make a meaningful difference in people's lives. Knowing our innovations help to make the world a better and safer place is what drives us.

JOB DESCRIPTION

- > Chemical raw material approval and integration into raw material concept and strategies leading to improvements in performance, quality and best costs.
- > Technical ownership of chemical raw material groups and raw materials related processes worldwide.
- > Ensuring proper raw materials specifications with all relevant technical and processing related issues, transfer of quality statistic and supplier capability into specifications and searching for opportunity to introduce new raw materials.
- > Coordination of chemical evaluations of raw materials on a laboratory level.
- > Taking participation or leading projects/working groups on demand.
- > Steering technical negotiation with suppliers and customers.
